

Incident handler's journal

Instructions

Record your findings after completing an activity or to take notes on what you've learned about a specific tool or concept.

Date: 07/08/2026	Entry: 001
Description	Documenting a ransomware attack on a U.S. health care clinic.
Tool(s) used	None.
The 5 W's	The 5 W's of an incident. • Who caused the incident? A group of unethical hackers. • What happened? The company's critical files were encrypted and ransom demanded. • When did the incident occur? On a Tuesday morning at 09:00am • Where did the incident happen? In the database of a health care clinic. • Why did the incident happen? It happened because employees fell for the phishing email attack, and the attackers gained access to the company's systems. After gaining access, the hackers were able to encrypt critical files and demand ransom for the decryption key.
Additional notes	Phishing attempts were the main cause of this attack. Additionally, paying ransom does not guarantee total freedom from the hackers.

Reflections/Notes: Record additional notes.
